Experience the Eagle Crest Life

"It was a very good decision to move into The Willows when we did seven years ago, before it was necessary. My husband's dementia was progressing and we wanted to move somewhere that was safe and where there was help if and when we need it. When he moved to Riverside, I was able to visit him daily until he passed away. I like the opportunity to meet and make new friends and do new things. I live in a community with others who have suffered losses in life - a loved one, a home - but we chose to live where we feel safe, feel welcomed and are supported by professionals. We were relieved of the responsibilities of living in our own home, e.g. cooking, cleaning, shoveling snow, shopping, etc. The location is wonderful and I just love my view; it's very peaceful. Also, my grandkids call this a 'Magic Place' because I can put my garbage outside of my door and someone will come pick it up!"
